Internet of Intelligent Things

The 2020 IEEE 6th World Forum on Internet of Things (WF-IoT 2020) is the premier conference of the IEEE IoT Initiative. This conference is attended by the most active participants from research community, government and public sector, small business, multinational corporations and industry. The technical papers, presentations and events at this conference are focused on contributions to nurture, cultivate, enhance and accelerate the adoption of IoT technologies and applications for the benefit of humanity. WF-IoT 2020 will include a multi-dimensional program of technical research papers, presentations, panels, workshops, tutorials and industry forum on the latest technology developments and innovations in many fields and disciplines that drive the utility and vitality of IoT solutions and applications. WF-IoT 2020 will be held at New Orleans, the Jazz music capital of the world.

The WF-IoT 2020 seeks submissions of technical papers and proposals that address, but are not limited to, the following topics:

- ❖ **RFID, Sensors and Actuators**
- ❖ **Power and Energy for IoT**
- ❖ **IoT Enabling Technologies**
- ❖ **Computing Platforms for IoT**
- ❖ **Data Acquisition, Storage and Management for IoT**
- ❖ **IoT Applications and Services**
- ❖ **Security and Privacy for IoT**
- ❖ **IoT Social Impact**
- ❖ **Design, Integration and Testing Methods**
- ❖ **5G and IoT Networks**
- ❖ **IoT Data Analytics**
- ❖ **Signal Processing for IoT**
- ❖ **IoT Experimental Results and Deployment Scenarios**
- ❖ **Machine Learning for IoT**

Accepted papers that are presented at the conference will be included in the conference proceedings and will be published in IEEE Xplore®. All papers must be submitted through the conference web site.

WF-IoT 2020 will include a rich, industrial-based program presenting the latest results and future strategies of IoT applications. Speakers will address the following Verticals: **Smart Cities; Oil, Gas and Energy; Agriculture; Health Care; Environment; and Industrial IoT**, and the following Topicals: **AI and Machine Learning; Security and Cyber Security; Sensors and RFID; Computing Infrastructure; Data and Data Engineering; and Communication, Connectivity, and Networking**

WF-IoT 2020 will also feature the following:

- > Special Sessions on Emerging Technologies
- > Tutorials on Research and Industrial Hot Topics
- > PHD/MSc Forum
- > Demos and Exhibits
- > Student Paper Contest

Details of proposals, submissions, and other details can be found on the conference [website](#).

New Orleans is one of the world's most fascinating cities – it's home to a truly unique melting pot of culture, food and music. Come down and experience New Orleans, one of America's most culturally and historically-rich destinations. The official New Orleans tourism guide, [NewOrleansOnline.com](#), is full of information about things to do, where to eat and more.

The conference venue is the Hilton New Orleans Riverside, which is located on the banks of the Mississippi River. It serves as the perfect central location for business and pleasure. It's attached to the Outlet Collection at the Riverwalk and just a few blocks from the French Quarter.
